L. H. BROWN APPOINTED ON SCHOOL BOARD

A petition for the appointment of Leonard H. Brown of North Palo Alto was received yesterday by Superintendent of Schools Roy W. Cloud, and Mr. Cloud thereupon appointed Mr. Brown for the unexpired term of the late L. P. Behrens as a trustee of the Sequoia Union High School District.

Mr. Brown has been clerk of the board of trustees of the Ravenswood school district for the past six years and is thoroughly cognizant of the duties of a school official. He is a graduate of Stanford University, he having been graduated from the law department of that institution in 1901. He never practised, however, but went into the painting business and for a number of years past has been a painting contractor and has owned a store in Palo Alto. He has one boy in Sequoia and another will enter next year, so his interests in the school prompted him to accept the place.

There were a number of people suggested for the place but Mr. Cloud decided that he would appoint someone out of town as Redwood City already has three of the members of the board. As the Ravenswood district is the largest district outside of Redwood City in the Sequoia Union High School district he was glad to have Mr. Brown brought forward as the man for the place.

The High School Board as it is now formed is made up of T. O. Heydenfeldt, Walter T. Kellog and James D. Hedge of Redwood City, D. E. O'Keefe, Menlo Park and L. H. Brown, Ravenswood.

Tired Eyes Make Tired People

CLERKS, STENOGRAPHERS AND OTHERS CANNOT HOPE TO WORK EFFICIENTLY OR COMFORTABLY UNLESS THE EYE IS PROTECTED BY PROPER LIGHT.

AFTER THREE HOURS' WORK UNDER ARTIFICIAL ILLUMINATION AS FOUND IN MOST OFFICES, THE ABILITY OF THE EYE TO SEE IS REDUCED FROM 14 TO 25 PER CENT. THIS SHOWS WHY EYESIGHT IS GENERALLY IMPAIRED AND GLASSES SO UNIVERSALLY NEEDED.

CHINESE PAYS $100 FINE FOR KEEPING GAMBLING PLACE IN MENLO PARK

Wung Fong, one of three Menlo Park Chinamen charged with keeping a gambling resort, pleaded guilty before Justice of the Peace Ray Griffin in this city Wednesday and was given a fine of $100 with the alternative of 50 days in jail. Fong elected to pay the fine.

Fong's companions, taken into custody by deputies from the sheriff's office last week, pleaded not guilty and will be tried later before Judge Griffin.

The arrest of the three Chinese, each more than 65 years of age, according to reports, came as the result of a visit to the gambling place by Deputy Sheriff Pete Larrecou and Under Sheriff T. C. WOODSIDE PEOPLE COMING AND GOING

The first snow of the season made its appearance on the mountain ridges on Monday afternoon, several weeks earlier than in previous years, and this was accompanied by a fall of sleet in the valley that covered the ground with a carpet of white for the short time that it lasted. The frost of Tuesday night played havoc with our water pipes. All of us had difficulty in drawing the water necessary for our morning coffee and many of us found the pipes split bo the freezing in a way that called for the aid of a plumber.

Mr. and Mrs. Fred Mighall and Mr. and Mrs. A. H. Audiffred celebrated their New Year's Eve with the California Commandery folk at the Fairmont Hotel in San Francisco.

Mr. and Mrs. Frank Nash of Burlingame are spending the week end with Mr. and Mrs. Jos. L. Ross, Jr.

Mr. and Mrs. Ludwig von Savoye gave a Mah Jongg party at their home here on Saturday evening last.

Mrs. Matson who has been occupying the William Roth house here for the winter is planning to leave this month for a trip to Europe. From there she will go down into Egypt. She will be gone for several months.

John Volpiano, foreman on the McCann place recently purchased a tract of five acres on the Canyada Road, adjoining the place of Bill Byrnes. Lumber is now being delivered on the ground for the erection of a house and work is progressing on the grounds.

E. Brandenstein of Stanford University, who successfully conducted the Searsville Lake resort during the past summer, is having an additional two acres cleared for the erection of more cabins in preparation for next season.

If this cold snap should continue much longer we shall consider the installation of heaters in our garages. More than one motor refused to function after the cold of Tuesday night, and Neuman's trucks were kept busy towing cars in a warming-up exercise.

SENATOR SHORTRIDGE AND THE ALIEN

Senator Samuel M. Shortridge in urging the passage of the act which would exclude aliens who are ineligible for citizenship is representing his constituents in California as they would have him do. Senator Shortridge has lived in California practically all his life and knows the feelings of the people of this state so far as Oriental immigration is concerned. He has no particular grudge against the little brown man, but he believes that any people who can never become citizens of the United States, who are barred from inter-marriage and whose interests will always be with the home land instead of with the country in which they reside should not be allowed to come to our country in any large numbers. The senator is right. He has seen the effect of the Jap settlement in very close proximity to his own home. He knows what a Jap colony means. He has seen the Jap woman at work with her man seven days in the week, while the baby of the family plays in a ditch close by. He knows that they can never become a real part of our people and he desires that restrictions regarding their entry to this country should be made. We pray for more power to his good right arm.

We would have him go still further than he has gone and have him put through an act that would deny citizenship to the offspring of any alien who was himself ineligible for citizenship, unless at all times the American language had been spoken in the home.

Senator Shortridge is willing that students and those who are on real bonafide business business enterprises may be admitted to the United States. Any loyal Californian should give Senator Shortridge every possibel assistance in the passing of the anti-alien act.

THE RAILROAD—PROMOTERS OF PROSPERITY

How many of us in thinking of a railroad attain a clear conception of its wonderful utility as a first aid to business? Do we not all too frequently accept it as a matter of fact—a mere carrier of persons and property? The truth is that there is no single factor of greater potency in the maintenance of our business structure than an efficient railway system.

The general prosperity of the last two years has been immeasureably heightened by the efficient handling of frieght, lately more than a million cars a week; this quick transportation making possible a fast turnover of commodities, more sales, and consequently more money in circulation. It has been contributed to liquid credit, thus making it easier to do business and has resulted in better coliections by reason of quick deliveries.

The Continental and Commercial Bank of Chicago, in its bulletin of November 10, says: "Fears of Fall freight congestion that were voiced in the Spring have proved entirely unfounded. Moreover, the efficient handling of freight has helped to keep credit liquid by making turnover more rapid. Bank credit has not been tied up or frozen through traffic congestion. The railroads have not been and will not be a drag on business. If they are not hampered by radical legislation, they will help business both by moving goods efficiently and by continuing to place equipment orders."

These facts, in no uncertain terms, speak for themselves. "Credit to whom credit is due."

OUR NEW SCHOOL

Next week will mark the opening of the new home of the Sequoia Union High School and the event should cause much real pleasure in Redwood City and in the whole of the Sequoia-Union High School District. It is probable that there is no more beautiful and up-to-date educational institution in the state and the people of this section should give thanks to the trustees who have so ably represented them and have given so wonderful a school to their children.

School trustees as a rule get very little thanks for the work and worry they give to the people of their neighborhoods and everyone who is proud of the new school should tell the trustees that they have done a good job.

Conditions have been so bad in the old school that it was hard for the teachers and school officials to give the kind of a schooling that they wished. The school was overcrowded. The students had to use the streets about the school as a playground and in every way the work was hampered. Now with plenty of room for work, play and study, and with beautiful surroundings, the students at Sequoia should be happy and studious young people.

A CLEAN SLATE

We have made no New Year resolutions. We are starting the year in a healthy and happy condition. We have outstanding accounts to meet and plenty of accounts on our books to meet them. So the start is good. We shall continue our policy of giving just as newsy a paper as is possible during the year 1924. We have a big subscription list and so can assure our advertisers a good return for the money invested in our pages.

We shall aim to please every customer this year. We solicit the patronage of every one who has any printing to be done. We will do it well and quickly and will charge only a fair price.

This paper is run on a fair basis. When the recent advance of union wages went into effect we cheerfully subscribed to the advance as we believe the craftsman is worth of his hire.

We solicit the support of everyone who believes that this is a good section of the country in which to live. We will boost for it. We want your support so that we may always continue to do so.

MILLBRAE DAIRY COW BREAKS THE RECORD

McCloud Bonheur de Kol Canary, a Holstein cow in the herd of the Millbrae Dairy recently completed an extra ordinary record for the production of butter. According to the advanced registry office of the Holstein-Friesian Association of America this cow produced in seven consecutive days 607.9 pounds of milk containing 24.470 pounds butterfat, equal to 30.58 pounds of butter at the age of five years.

Ixione Musa of Millbrae, another cow in the same herd, made a remarkable record by producing in seven days 463.0 pounds butterfat equal to 23.90 pounds butter at the age of two years.

The advanced registry system of the National Holstein Association was started 38 years ago and has constantly grown in importance. This system is absolutely essential to successful breeding operations in purebreds and is proving the main factor in increasing the productive capacity of all dairy cows. Dairymen are recognizing the superior value of a purebred bull to increase the production of their herds and are selecting those which show advanced registry breeding.

John Harrington Gives Good Talk

A number of local people went up to San Mateo Wednesday noon and enjoyed the lunch of the Exchange Club of San Mateo-Burlingame and listened to an address given by Engineer John L. Harrington, projector and engineer in charge of the Dumbarton Bridge project. Mr. Harrington arrived from the east this week and expressed himself as highly pleased with the progress made so far in his undertaking.

In a pleasant manner he outlined what he hoped to accomplish in the building of a great bay span. He explained some of the difficulties in his way and then told of the wonderful results that might be expected.

Mr. Harrington is a most amiable gentleman. He has had large experience in work of such as he is now backing and has been successful in all of his undertakings. His plans as outlined are feasible and his completed bridge across the bay at Dumbarton will mean much to the prosperity and growth of this section of California.

CONSTABLE AND JUSTICE TO BE APPOINTED SOON

The County Board of Supervisors will probably appoint a constable and a justice of the peace at the meeting to be held next Monday. There has been considerable rumor as to the successor of the late Martin Walsh and it would seem that James Logan, for a number of years a traffic policeman for San Mateo county, has an edge on the place. The fact that Mr. Logan has been on police duty for so long a time leads to the conclusion that he will be appointed. It is generally conceded that the appointment will go to some one in Menlo Park as that place has no police protetcion and being on the main traveled highway should have a constable located there.

Rumor has it that Mrs. Porter E. Lamb will be appointed to the place held by her late husband, as justice of the peace of the Second township of San Mateo county. Mrs. Lamb is a resident of Belmont, but if appointed will probably open an office in San Mateo. Justice Walter Bird, who is now running Ray Griffin a close race for the title of the marrying justice of San Mateo county, now has charge of all of the petty court affairs of the Second township.

HOW TO BUILD A TOWN

The best way to build a town is to stand by every man who does right. Whenever a man is doing right do not tear him down. All residents should be partners, not opponents. Every business man in town who treats his customers honestly, courteously and fairly, will get his share of business, and the more business that can be secured by united effort, the better it will be for all. When a town ceases to grow it begins to die, and the more people try to kill each other in business, the more rapidly will utter ruin come to all. Stand together for the advancement of every citizen. If a man shows ability to prosper, do not pull him down through jealousy or weigh him down with cold indifference.

Bank of Italy Makes Growth

With resources of more than $300,000,000, representing a gain of $50,000,000 during the past year, the statement of the Bank of Italy for the close of 1923 was published today. Based on figures compiled by the Literary Digest, this indicates that the Bank of Italy is next in size to the Bankers Trust Company of New York, which institution ranks seventh in the United States.

A total of 485,136 depositors—one-eighth of the population of California—have accounts with the bank. In this particular it leads all of the Nation's banks. Deposits aggregate $277,000,000, an increase for 1923, that parallels the growth in resources.

"This is one of the best years that our institution has enjoyed," A. P. Giannini, president of the bank. "We have made progress not only with respect to our financial strength but also in perfecting the organizations feautres of service. It is especially gratifying to feel that we have won the confidence of nearly half-a-million people and that we are able to do something for them that is of real benefit."

The growth in number of depositors for the current year has been approximately 85,000. At the close of 1922 there were 401,798, a figure that occasioned nation wide comment at that time, and brought congratulatory wires from various banks throughout the United States. The present total, however, shows a gain of 21 per cent over last year.

With the addition of the new offices recently established the Bank of Italy now has 75 branches in 52 California cities.

New High School Opens Jan. 14th

According to last reports from A. C. Argo, principal of the Sequoia Union High School, the date of the opening of the new school building has been postponed from the 10th to the 14th of the present month. The postponement was made necessary by the necessity of further time in which to prepare the new building.

Work on the new ediface has been progressing rapidly and although it will not be completed for some time after the date set for the opening of school, the main building and the annexed gymnasium will be ready for use.

Work has now been begun on the ornamental arch way which is to grace the main entrance to the beautiful grounds. The remains of the house which stood at the corner of Broadway and the County road have been removed, and the arch will occupy the site at the corner.

Two San Jose Marriage Licenses

Two marriage licenses of special interest here were issued in San Jose last Saturday.

One was to Kenneth D. Chamberlain of Redwood City and Margaret C. Russell of San Jose. Mr. Chamberlain has resided in Redwood City for a number of years and is an employee of the Pacifitc Gas & Electric Company. Because of his genial disposition he has made many friends here.

The other license was issued to William E. Burdick of Stanford University and Miss Helen R. Becker of Redwood City. Miss Becker has been the principal of the Belmont public school for the past year, and has resided on the corner of Duane and Whipple streets during her residence in Redwood City. She is a very charming young woman and has made many friends here and at Belmont. Mr. Burdick is a student at Stanford.

We wish both of the newly married couples many years of happy and prosperous married life.

The well-known firm of Drs. Ross and Barret has been dissolved. Dr. Ross will continue to occupy offices in the Wahl building. FORMER RESIDENT TELLS OF JAPANESE DISASTER

Alexander Ryan, a former resident of this city and now of San Francisco, was here during the week visiting with Mr. and Mrs. John W. Poole. Mr. Ryan was in Yokahama during the recent earthquake and flood, and the stories he tells of the horror and suffering during that awful event leads us to be thankful that the people of Redwood City responded so liberally to the call for aid as relief was certainly needed.

Mr. Ryan was in Japan as chief engineer of the Shipping Board ship, West Prospect, and helped in the relief that was given to his suffering countrymen who happened to be in the Orient at that time. He has had a chance in his career as an engineer to see practically every port in the world. He was an officer in both the Spanish-American and World wars, and was recommended for Special Commendation by Admiral Sims for bravery during the late World war.

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

REGISTER YOUR AUTO AND SAVE TROUBLE

More than one million California motorists will soon be in more or less of a mad scramble for their new 1924 license plates, those magic insignia with the green background and the white numerals which will get them by the requirements of the law for another year.

And the scramble will probably be somewhat intensified this year since failure to secure the plates before the end of the re-registration period, March 1st, will call for a penalty of 100 per cent—a doubling of the flat fee of $3 which pleasure car owners will pay, and other fees in proportion.

Re-registration for the new year will open on January 14th, and through arrangements with the State Motor Vehicle Department, the California State Automobile Association will assist by issuing plates and receipts, for passenger cars only to their 35,000 members in Northern and Central California.

Some of the "Do's and Dont's" which the association is calling to the attention of its members will be of interest to the general motoring public. Among them are:

1. Be sure that the adress given on the certificate is correct.

2. That the certificate is properly signed.

3. That the year model and type are shown correctly.

4. That the engine number is correct.

There is a reason for these warnings. Under the new Motor Vehicle Act two certificates of registration will be issued from Sacramento this year. One will be a certificate of registration, which will be carried in the car as heretofore. The other will be the certificate of ownership. This latter should be carefully filed away in the owner's safe or safety deposit obx. This is the "anti-theft" provision of the new law, for after this registration, no car can be properly transferred upon the Motor Vehicle Department records unless both certificates are produced. No longer can the carthief get away with a little clever manipulating of the registration certificate placed in the car. He will have to blow the owner's safe and get the other receipt to accompany it.

Hence the double necessity this year of geting all data correctly recoided, such as the right names of the registered owner and the legal owner, the year model and type of car, and the engine number. And unless the proper name and address is shown legibly on this year's certificate, there is danger of the new certificate going astray in the mails, and being returned to the "dead letter" department at Sacramento.

Only strictly passenger cars will be registered, even for members of the association at the district offices of the Automobile Association, gasoline cars at the $3 flat rate, and electrically operated passenger cars for $13. (This differential being because the electric vehicles do not pay their pro rata share of highway upkeep through the new gasoline tax.

Application for registration of all trucks, trailers, delivery and commercial cars must be made direct to Sacramento. The schedule of fees for vehicles of these classes has been entirely revised under the new law.

All vehicles in these classes which are equipped wholly with pneumatic tires will pay fees under the following schedule: Those which weigh less than 3000 pounds, $5; 3000, but less than 6000, $10; 6000, but less than 10,000, $15; over 10,000 $20. Vehicles which are equipped wholly, or partly, with solid tires, will pay double the above fees. And all will pay the additional $3 flat registration fee which is required of all motor vehicles.

Electrically operated commercial cars, equipped with either solid or pneumatic tires, will pay $50, plus the $3.

An additional fee will be charged this year for trailers under the same weight and tire schedule as that provided for commercial cars.

And unless you are registered before midnight of March 1st, you pay double.

WORK WILL SOON START ON DUMBARTON BRIDGE

Preliminary developments have reached that point where it is a question of but comparatively short time until actual work will start on the Dumbarton Highway Bridge, according to John Lyle Harrington, president of the bridge corporation who arrived in town this week. Practically all necessary data has been gathered so that there will be no delay in the construction once it is started, he said.

Harrington expressed extreme gratification with the co-operation given the bridge project by the various civic and economic organizations of Central and Northern California. Such unity of action will, in his bedief, quickly dispel the opinion prevalent in some quarters that Southern California is the most co-operative section of the State. He was pleased to learn, Harrington said, that not only had the civic bodies gotten behind the project, but that the motor association had also lent its support to the movement. Unquestionably completion of the bridge will result in increased values of all lower bay district property, and I belive that every business, firm, industry and citizen within the bridge's economic radius will benefit either directly or indirectly from it.

Life Saving Work Of Red Cross Corps Wars on Drownings

The insignia of the American Red Cross Life Saving Corps on the bathing apparel of men, women and youths is seen everywhere at favorite bathing places along the coasts, rivers, lakes and ponds. In its unrelenting campaign to reduce loss of life by drowning the Red Cross is making constant headway. The demands for instruction from organizations in all parts of the country were so numerous the past year that it was necessary to more than double the staff of Red Cross instructors. This work of training for water life-saving showed an enrollment of over 30,000 volunteers enlisted for duty on patrol, for rescue and resuscitation, all competent to instruct others in the standard water-safety methods. The Red Cross by request of the War Department gives water first aid training at the United States Military and Naval academies and in the military training camps for reserve officers and civilians. The four cash prizes awarded by the Red Cross last year for heroic rescues were conferred upon two girls, a boy and a man, indicating that the youths of the country stand well at the top in conserving life along our water courses.
